# The Cutting Edge... Vogue's hottest salon picks!

## MAD LILLIES

"This could be the best salon in London" was how one client recently reviewed Mad Lillies of Hampstead. She continued: "It is small, very friendly but with an air of professionalism." Mad Lillies has always been welcoming and friendly and both part of its charm, but it is also sophisticated and professional and only employs the best and most experienced Senior Hair Stylists and Technicians. It has been the hottest and most popular hair salon in the area for over a decade and continues to be the salon of choice for both and continues to be growing its reputation through that traditional mark of a great place - personal recommendation.

This relaxed neighbourhood salon focuses on giving you a highly individual service and working with you to achieve the perfect style and the most luxurious salon experience. Mad Lillies has recently added the renowned Dr Nidock's Anti-Ageing Clinic to its repertoire, so all hair cutting sessions are now right on your door step. The team of International Senior Stylists are experts in the ever popular Brazilian Blow Dry and are now offering a completely natural, chemical free, but extremely effective version as well.

Credits include London and Paris Fashion Weeks so if you want catwalk-fabulous tresses, book an appointment now!
